This Week's News

February is already here! As well as everything else going on in school, we have some exciting news in Year 4: 20 children are going to work with an artist to create a design for some stained glass windows at Withington Baths.

Outside school, as we look ahead to Internet Safety Week, we'd like to remind all parents that it is important to supervise online activity. Please make sure you know what your child is doing online, and that they are only contacting people they know. It's also important to be kind in the virtual world as well as in the real world. Remember: a text or online message may seem like a small thing, but it can hurt and once something is published online, it's there forever. Look out for more from the school on Internet Safety next week.

Word of the Week

RELATIONSHIPS

Relationships between people are connections and links between them. **You know when you're in a healthy relationship because you feel happy to see and spend time with certain people.** They could be members of your family, your friends, your teachers or other adults who help you.

No relationship is ever perfect and you'll definitely have moments when you disagree with others.

Healthy relationships include: **Commitment** (sticking with someone and standing up for them); **trust; respect** and **responsibility.**

Book of The Week

Miss Bird is going back to memories of school with her book of the week: **The Giraffe and the Pelly and Me** by Roald Dahl.

This was my favourite book as a child in year 3. I can still remember my year 3 teacher, reading it to me.

I loved the idea of animals being able to help each other as window cleaners. I also enjoyed the songs that the animals sing.

I know that there are two copies in the library.

If you would like more information about free swimming lessons in the February half term please speak to Mr Pye or email him at spye@oldmoat.manchester.sch.uk

Thank you for a fantastic Number Day everyone!

Shopping APP

The NHS has released a new food scanner app which allows you to scan the barcode of the food item and you can find out what is in it and swipe to swap to healthier items. The children have had an assembly this week telling them about it and there is a link to it on the new 'Healthy Schools' blog page.
