

The Nursery have a busy half term coming up with lots of exciting things planned. We will be having parties, picnics, performances and much more. We would love for you all to be involved too, keep a close eye on our school blog for upcoming invites and events!

Thank you for your continued support.

Miss Murphy, Miss Campbell, Miss Lane and Miss Smith.

The children will be learning all about different celebrations. We will be looking carefully at how we celebrate.

The children will be having and preparing for their own celebrations, looking at cards and invitations, baking cakes and joining in with different party games.

How do we celebrate?

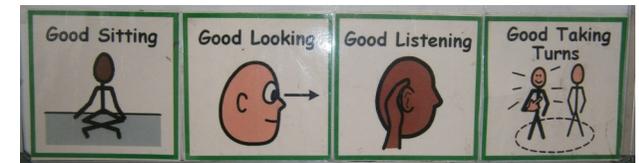

In maths we will be learning all about numbers to 5 and beyond, we will be learning to recognise numbers, count objects accurately and begin to represent number. We have a 'number of the week' displayed around the classroom, can your child find it?

We will be learning to identify 2D shapes and talk about some of their properties. We will be looking at colour patterns and trying to make our own.

Thank you for your wonderful response to our homework introduction session. Please continue with reading & returning your child's reading books. The homework packs will be sent home this half term.

In literacy we will be developing our listening and turn-taking skills through playing different party games. We will also be talking about the different celebrations we have in our own lives.

We would like to welcome Miss Pinkerton to the Nursery. Miss Pinkerton is a PGCE student doing her teaching placement with Miss Murphy at our school. She will be with us until February so please do say hello!

In phonics we will be aiming to develop children's awareness of sounds and rhythms. Activities include singing songs and action rhymes, listening to music and developing a sounds vocabulary.

We will be playing lots of listening games. Could you go on a listening walk with your child? What things can you hear?
